

COMAC

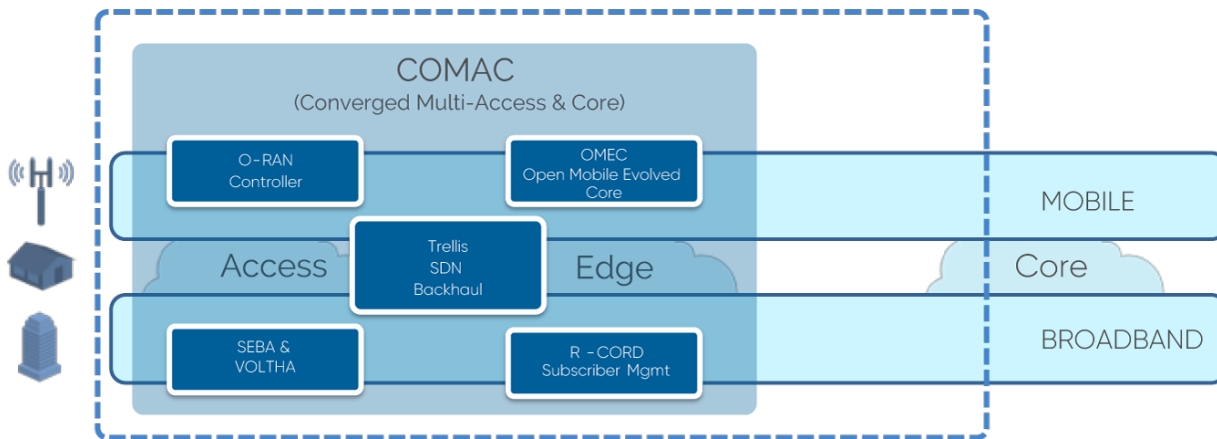

Welcome to the COMAC wiki space. All information on this wiki is publicly accessible. If you would like to contribute to this space, you will need an Open Networking Foundation account: <https://wiki.opennetworking.org/signup.action>

Introduction

COMAC stands for Converged Multi-Access and Core. The [COMAC open source project](#), paired with the [COMAC RD](#), has been launched to bring convergence to Operators' mobile and broadband access and core networks.

The component projects included within COMAC are:

- [SEBA](#)
- [VOLTHA](#)
- [R-CORD](#)
- [Trellis](#)
- [OMECE](#)

We expect all ONF employees, member companies, and participants to abide by our [Code of Conduct](#). If you have any questions or concerns, please notify a member of the ONF team or email conduct@opennetworking.org.

Having trouble getting started? First, reach out to the mailing list or Slack team. If you still have questions or concerns, please email help@opennetworking.org.
