

Recommended Topics

If you plan to give a talk or lead a workshop about ONF projects, here's a list of recommended topics and ideas:

- Access Network Redesign
- A-CORD: An Analytics and Monitoring Framework
- Adaptive Flow Monitoring & Selective DPI for ONOS
- CORD Controller
- Demystifying the ONOS Northbound Interface
- Developing Apps with ONOS
- Disaggregate & Virtualized RAN
- Disaggregated Virtualized EPC
- Driving standards from code
- E-CORD Services
- Enterprise CORD: Smart Pipes in the Metro
- Investigating New Services for GÉANT Using Open Networking Operating System
- M-CORD Overview
- Migrating AmLight from Legacy to SDN: Challenges, Results and Next Steps
- Multi-Layer Performance Based Path Computation Engine Enhancements to ONOS Controller for SD WAN Packet Optical Integration
- NETCONF and YANG integration in ONOS Southbound Interface
- ONOS and OpenDaylight: Crossing the Chasm
- ONOS-Based Services: vOLT and vRouter
- ONOS Lightning Talk: VTN and SFC Implementation in ONOS
- ONOS Web UI
- R-CORD Sizing and Deployment Scenarios
- Scalable vSG Performance
- Service Composition in CORD
- Service Models
- Switching Fabric in CORD
- System testing
- Taking SDN / OpenFlow to your home—Powering content delivery with OpenFlow, ONOS and PicOS
- Third-Party Services
- YANG Model Support in ONOS SDN Controller
- Yang Model Vision and Practice in China Unicom
