Goals

- See below

Discussion Items

Time	Item	Who	Notes
1	General notes	Giorgio Cazzaniga	<p>OTCC TST meeting held on 7/1. Here some notes on WT topics:</p> <ul style="list-style-type: none">• Face to face meeting: OTCC is planning different face to face meeting during 2019; we need as WT team to decide if there is any interest/opportunity to have a f2f meeting as well:<ul style="list-style-type: none">• F2F Meetings for 2019<ul style="list-style-type: none">• March 18-22 Sydney - hosted by Cisco:<ul style="list-style-type: none">• Need to prep for the logistics information, in particular the invitation letter for visa application• May 6-10, 2019 Beijing - hosted by FiberHome and China Mobile:<ul style="list-style-type: none">• Thanks to FiberHome & China Mobile for volunteering the site!• September 2019 OIMT/OTCC meeting:<ul style="list-style-type: none">• Current plan is to meet at the ONF CONNECT meeting with rooms available to us for parallel working tracks• December 9-13<ul style="list-style-type: none">• possible location is London, UK• ONF Connect results: here the link to the material presented during ONF Connect event (December 2018): https://www.opennetworking.org/onf-connect-2018-collateral/• WT addition to TAPI: we need to indicate as WT team if there is any interest to include WT specific parameters into TAPI• Plan for WT activities:<ol style="list-style-type: none">1) alignment to Core 1.42) Backward compatibility: some discussions have been already done at TAPI level and there is an action point pending from Martin Skorupski and Nigel Davis to have a white paper/proposal to discuss; this discussion needs to be restarted in order to finalize a position
2	PoC5	all team	<p>Remaining activities:</p> <ul style="list-style-type: none">▪ blog post: published by ONF and by Fierce Telecom: https://www.opennetworking.org/news-and-events/blog/multi-domain-transport-sdn-made-real-in-the-onf-proof-of-concept-for-wireless-transport/ and https://www.fiercetelecom.com/telecom/onf-announces-results-multi-domain-sdn-transport-poc?utm_source=internal&utm_medium=rss▪ detailed report/white paper: draft version available (under review by Telefonica)<ul style="list-style-type: none">▪ all contributions (essay) received▪ ongoing Telefonica review for coherency and wording▪ Missing: Executive Summary, Test Results and Conclusions<ul style="list-style-type: none">▪ It is requested to each Application providers to provide a short contribution for the test results and conclusions for their use case, as for example: all hw were connected to the controller and taken into consideration by the application, showing the expected results etc etc▪ for the Conclusions we should take the blog post and use as conclusions (removing the duplicated parts)

3	2019 WT activities plan	all team	In 2019: <ul style="list-style-type: none">▪ deliver TR-532 Rel1.1 formally▪ Model: next version will be Rel.2.0:<ul style="list-style-type: none">▪ look at the open bugs in Mantis and decide the priority for the next release▪ discuss about the alignment with the Core Model 1.4▪ N.B. this model will not be backward compatible respect to 1.1▪ 6th PoC: there is an interest from a Portugal operator to host this activity. Target will be also to involve higher number of operators.
---	-------------------------	----------	---

Action Items

- @all team** --> review the detailed report of PoC 5
- It is requested **to each Application providers** to provide a short contribution for the test results and conclusions for their use case, as for example: all hw were connected to the controller and taken into consideration by the application, showing the expected results etc etc
