Community Home

Welcome

Welcome to the **Open Networking Foundation (ONF) Community**! Here you can find information related to building, strengthening, and leveraging the community of people involved in various ONF platforms and projects.

To get started, we recommend exploring each project page to find out more about what we do and what interests you. Each wiki page will give you more information on how to get involved with that particular project.

To stay up to date with what's happening at ONF, subscribe to the ONF Newsletter.

ONF Account

Most of these wiki pages are visible to everyone, but to edit something here you'll need an ONF Account. Using a valid ONF member company email address to create your ONF account will also grant you access to ONF member-only spaces, such as the Handbook for New Members, which contains member-only resources and member benefits. *(Please note, it may take up to 24 hours for your member access request to be granted. If you are not able to access the Handbook after 24 hours of creating your account, please reach out to membership@opennetworking.org)*

We expect all ONF employees, member companies, and community participants to abide by the ONF Code of Conduct. If you have any questions or concerns about the Code of Conduct, please notify a member of the ONF team or email conduct@opennetworking.org.

Contact Us

- If you would like more information about becoming an ONF member, email membership@opennetworking.org
- Notice something out-of-date or out-of-place on the wiki? Email help@opennetworking.org
- Having trouble getting started with a project? First, reach out to the mailing list or Slack channel for the particular platform or project you're wanting to participate in. If you still have questions or concerns, please email help@opennetworking.org
