

# Contributions

Please use the following convention for the file name of the contribution:

- oimt2018.ZZ.xxx-yy\_brief-title
  - where ZZ is two letter initial of the author in capital letters, e.g., JD for John Doe
  - where xxx is a 3 digit sequential number starting with 001. Each author owns and manages his/her own sequences.
  - ~~yy is a 2 digit sequential revision number starting with 0+~~

**NOTE: Convention change starting from 2019.10.03:**

- No longer need the yy revision number in the file name. Allow confluence-wiki to manage multiple versions of the document.**
  - See [2019-10-03 OIMT Meeting notes](#) for the decision.**
- Examples:
  - oimt2018.KL.001-04\_ETH-TP-refactoring
  - oimt2018.KL.002\_draft-TR-512.A.3-v1.4
  - oimt2018.KL.002-04\_draft-TR-512.A.3-v1.4 (**avoid**)
