

ONF Spotlight Series

ONF launched a new virtual series for 2020-2021 that seeks to deliver valuable industry insights about the fast-growing open source movement for building next generation mobile and broadband infrastructures. The **ONF Spotlight Series** incorporated a combination of virtual live and on-demand content that is accessible to a broad audience across the globe.

The format for each ONF Spotlight included a number of virtual Live Keynotes along with several pre-recorded plenary and technical sessions.

ONF is pleased to announce the **2021 Private 5G for Industry 4.0 Spotlight**. This event is focused on exploring enterprise digital transformation with 5G and edge cloud, and registration is [now open](#), and the **CFP closes August 6, 2021**.

The ONF Spotlight Series schedule for 2020 included:

- **Broadband** - July 7 & 8, 2020 – [View on-demand content](#)
- **5G Transformation with Open Source** - September 8 & 9, 2020 - [View on-demand content](#)
- **5G Connected Edge Cloud for Industry 4.0 Transformation** - December 8 & 10, 2020 - [View on-demand content](#)
- **Private 5G for Industry 4.0** - September 28 - 30, 2021 - [View on-demand content](#)

ONF regularly hosts community events across our broad spectrum of projects and platforms. Check out our [upcoming events](#) to see what's next!
